

OLEG PRYKHODA

Frontend developer & UI / UX designer

SUMMARY

- Self-taught web developer and designer with 7+ years delivering a good-quality experience to users
- Implementing applications as a web designer from concept through deployment
- 4+ years of experience in web development using ReactJS ecosystem such as NextJS, Gatsby, React & Redux, GraphQL etc
- Well-versed in Figma and the essentials of UI/UX design principles

EXPERIENCE

ReactJS developer / 2018 – present

- Creating fully responsive websites prototyped in Figma/Sketch and developed in Javascript with React, Redux, NextJS, Gatsby, Headless CMS like Contentful and GraphCMS. Mostly e-Commerce, SaaS, marketing apps with Python or NodeJS as a backend
- Integrated RESTful APIs and GraphQL to fetch and update data in real-time
- Worked closely with UI/UX designers to get the good both user and developer experience for projects
- Designed and launched static SPAs for small businesses, freelancers and agency

UI / UX designer / 2015 – 2018

- Built the entire/part of product designs process using Figma and Sketch, covering various fields of UX/UI like research, rapid prototyping, responsive design and setting style guides
- Collaborated with development teams and helped to implement current design system (such as 8pt grid system)
- Designing email templates, promotional pages and product banners

Web master, content manager / 2013 – 2015

- Managing content and administrating an online store made with Opencart. Optimizing current system modules and adding new ones
- Creating promo banners and other infographics
- Working with related stores on Prom.ua and olx
